FCC MAIL ROOM

File: RM-8218

Subject: Notice of proposed rule making; automatic control of amateur high frequency RTTY and data communications.

In the event that automatic control of amateur RTTY and data communications meets with general approval, it is requested that the Commission give specific consideration to the 15 meter and 20 meter frequency segments and alternatives to those proposed by the petitioner, the American Radio Relay League.

15 meters Proposed: 21.090-21.100 MHz

This request: 21.100-21.110 MHz

20 meters Proposed: 14.095-14.0995 MHz

This request: 14.112-14.117 MHz (Total segment 14.1005-14.117 MHz).

Rationale

World-wide Baudot/Murray code RTTY communications have been maintained since the beginning of amateur RTTY in the general regions of 21.090-21.100 MHz.
